Deepa AIPA

MS Word Interactive Practice

Completed practice portfolio with examples of core Microsoft Word tools

Student Name: Deepa Batch: AIPA Date: 10/09/2026

Mission 1 Format Detective

DIGITAL SKILLS FEST 2026

Learn. Create. Collaborate. Present.

Technology is most useful when it helps people solve real problem.

Mission 2 Shortcut Hunt

Action	Shortcut
Select all text	Ctrl + A
Copy selected text	Ctrl + C
Paste	Ctrl + V
Undo	Ctrl + Z
Redo	Ctrl + Y
Save	Ctrl + S
Find a word	Ctrl + F
Bold	Ctrl + B
Italic	Ctrl + I
Underline	Ctrl + U
Print	Ctrl + P

Mission 3 Lists and Structure

Top 5 Digital Skills

- Typing
- File Management
- Internet Research
- Word Processing
- Cyber Safety

Mission 4 Table Builder

Student	Course	Skill	Practice Time	Score
Aarav	BCA	Word Processing	2 hours	88
Priya Patel	BSc IT	Typing	3 hours	91
Riya Singh	BCom	File Management	2 hours	84
Sanjana	BA	Internet Research	1 hour	86
Neha Yadav	BTech	Cyber Safety	3 hours	90
Sana	BCA	Word Processing	2 hours	89

Small table with merged cells:

TOTAL	
Students	6

Mission 5 Picture and Wrap Challenge

Figure 1: Technology and digital learning

This technology illustration is resized and placed on the right to demonstrate how a picture can support a professional Word document. In Microsoft Word, use Wrap Text and choose Square or Tight to make surrounding text flow around the image.

Mission 6 Links and Navigation

Visit the official Microsoft website for more information.

For help, email techclub@example.com.

Mission 7 Page Layout Lab

- Suitable margins have been set, with a header and footer included.
- A page break separates major work sections.
- The next page is landscape to demonstrate section-based orientation.

Landscape Section Example

Landscape orientation is useful for wide tables, images, and reports. This page uses a different header and footer from the earlier portrait pages.

Mission 8 Find Replace and Proofreading

Original paragraph: A computer can help students research, write, calculate, design and communicate. A computer becomes more useful when the user knows how to organize information. A computer is also useful for creating professional documents.

After Find and Replace: A digital tool can help students research, write, calculate, design and communicate. A digital tool becomes more useful when the user knows how to organize information. A digital tool is also useful for creating professional documents.
